

Suggestion for the rules:

Organizing turns:

- Each country (Finland, Sweden, Norway and Denmark) arranges the show when it is their turn.
- Show is to be organized every other year and the arranging turn moves from one country to another. So each country organizes the show approximately every 8th year.
- Exception for this every other year - cycle is if there is either World Winner Dog Show or European Winner dog show in some of the Nordic countries, then the show can be arranged with that and turns can be changed. This has to be negotiated (majority decides) with other countries.

Show specs:

- The show needs to be an official show, where participants can win official (N-) CAC. Official rules are the same as arranging countries have in official specialty shows.
- Show can be the same show as arranging countries dalmatian specialty show, but the show has to be named as Nordic Dalmatian Specialty Show
- All participants receive a written critique (paper or online)

- Winners (best male and best bitch) will get unofficial title

- The arranging country gets all incomes from the show.
